

# Durakwik™ Faux Beams

**Architectural Impact. Lightweight Simplicity.**

Durakwik™ Faux Beams deliver the warmth and character of real wood beams—without the weight, cost, or installation headaches. Designed to pair seamlessly with Durakwik products or stand beautifully on their own, these beams add instant architectural interest to interiors and exteriors alike.

---

## The Look of Real Wood—Made Practical

Crafted with high-definition textures and natural wood grain detail, Durakwik Faux Beams capture the authentic appearance of hand-hewn timber. From rustic farmhouses to modern commercial spaces, they provide a bold design statement that feels real, refined, and timeless.

---

## Why Choose Durakwik Faux Beams?

### ✓ Lightweight & Easy to Install

Made from durable, lightweight materials, our faux beams install quickly with standard tools—no structural reinforcement required.

### ✓ Durable & Low Maintenance

Unlike real wood, Durakwik Faux Beams won't crack, warp, rot, or attract insects. No staining, sealing, or upkeep needed.

### ✓ Interior & Exterior Ready

Engineered to perform in a variety of environments, these beams are suitable for both indoor and outdoor applications.

### ✓ Consistent Quality

Every beam delivers uniform color, texture, and finish—no surprises, no waste.

### ✓ End Caps Included

Two end caps are included with all beams. It allows you to complete the project with natural finishes anywhere.

### ✓ One Piece Beam

All beams are made in one piece which offer greater durability and more natural look.

---

## Ideal Applications

- Great rooms & living spaces
- Kitchens & dining areas
- Entryways & hallways
- Covered patios & porches
- Commercial interiors & storefronts
